

PROENDURANCE 9,5MM

Ref: 69011200

Our most manageable semi-static rope with the most reduced diameter and type A standardisation. Thanks to its ENDURANCE construction, it is pleasant to the touch, easy to knot and easy to handle. Works well with all types of locking clips and has exceptional resistance to abrasion. Valid for all types of installations and manoeuvres, especially rapid or less accessible installations.

Información técnica:

Brand:	Fixe
Diameter:	9,5mm
