

D-BELAY STATION 316L

Ref: V40410

D-BELAY STATION ECOTRI

D-type meeting point in stainless steel 316L, for outdoor environments / ecotri zinc-coated, for indoor environments.

Two fixing points composed of Fixe 1 plate at the upper end, both for M10 / M12 screws.

Anchor point with a ring.

Designed and manufactured in Barcelona-Pyrenees.

COMPONENTS FEATURES

Fixe 1 plate geometry:

- Rounded inner edge for minimal carabiner wear.
- Directs carabiner for optimal ceiling work.
- Conical Washer. More control over tightening torque.
- Three anti-rotation pins.
- Optimized surface for full contact.

Fixe 1 plate features:

- For M10 / M12 screws.
- Weight: 57g (M10) / 56 (M12).
- Breaking strength: 25kN.
- Material: ecotri zinc-coated steel / inoxidable 316L.

Ring features:

- Ring always present between components for better maneuverability.
- TIG welding. Better corrosion resistance.
- Inner diameter: 33mm.
- Breaking strength: 25kN.
- Material: ecotri zinc-coated steel / inoxidable 316L.

Features of the stainless steel 316L chain:

- TIG welding. Better corrosion resistance.
- Reduced number of links to three. Fewer critical points.
- Link rod diameter: 7mm.
- Usable length: 185mm.
- Breaking strength: 25kN.
- Material: stainless steel 316L.

Features of the ecotri zinc-coated steel chain:

- Link rod diameter: 7mm.
- Usable length: 185mm.
- Breaking strength: 25kN.
- Material: ecotri zinc-coated steel.
