

LINUS

Ref: H61009

LINUS

Harness designed for adventure circuits at height. A functional design where its lightness, resistance in friction areas and an easy adjustment system using buckles is notable.

One size with a wide range:

- Adjustable waist of up to 120 cm.
- Adjustable leg straps of up to 90 cm.
- Elastic straps at the back.

Colour code: Designed in three colours:

- Anthracite: The most visible parts of the harness.
- Red: Safety seams and gear loops. More intuitive manoeuvrability and an easy review of security points.
- Black: Covers the areas most exposed to contact and at risk of chafing.

Includes a breathable carry bag.
