

## 7,4 GAVARNIE

Ref: C442741050

### The Gavarnie

The Gavarnie is a rope with double standardisation, double and twin. It is durable, reliable and versatile in alpine terrain. Its light weight at just 38gr/m allows climbers to move without hardly noticing any weight or friction. Its Fusion construction provides extra security on winding paths to overcome sharp rocks and ridges. It is recommended for technical climbs, where every gram counts, and is ideal for mountaineering, ice climbing and technical ski mountaineering.

The Cirque de Gavarnie is part of the Monte Perdido massif and is the inspiration behind the rope of the same name. This cirque is flanked by a large rock wall with three imposing vertical gradients. The cirque is surrounded by several peaks standing over 3,000 meters, so climbing its walls requires an extraordinary level of skill and technique, with routes of up to 1,500 meters of change in altitude. Top climbers tackle its walls in the winter season, with ice climbing and mixed styles predominating.

### Technology

Diameter: 7.4 mm

- Standardisation: double and twin
- Full Dry treatment: Water-repellent treatment on the sheath and core. Totally waterproofs the rope. Provides resistance to oil, grease and water. Extends the rope's lifespan. UIAA water repellent standard.
- Endurance construction: It favours sliding and extends the rope's lifespan. Braided with 32 threads.
- Fusion: Prevents sheath slippage. The rope's performance is extended by the firm union of the sheath and the core.

### Finishes:

- Middle Mark: indicates the rope's halfway point with a black mark.
- 8 Mark: marking system that uses a red mark to indicate that there are 8 meters left to reach the end of the rope.
- Reflector: reflective indicator at both ends of the rope.
- Ultrasonic cut: stiffens the rope ends and protects them from wear.

Lengths available: 50 and 60 metres

Colours available: Orange and Blue

Manufactured in: Sant Quirze de Besora (Barcelona – Pyrenees)

### Technical information

N Falls: 5/14

Weight: 38g/m

Impact force: 7.5KN/8.2KN

Slippage: 0 mm

Dynamic Elong.: 38%/28%

Static Elong.: 10%/11%

Sheath: 37%

### Packaging info

Vegetal Base INK

27% Recycled material

100% Recyclable material  
4% Synthetic (40% recycled)

Información técnica:

Brand:	Fixe
Country of origin:	Barcelona - Pyrenees (Spain)
Color:	Blue
Material:	Polyamide
Format:	Bag
Middle Mark:	Yes
Treatment:	Full Dry
Static Elongation:	11% half / 10% twin
Number of Falls:	5 half / 14 twin
Impact Force:	7,5kN half / 8,2kN twin
Sheat Slipage:	0,0mm
Type of Sheat:	Endurance
Type of Rope:	Half / Twin
Dinamic Elongation:	38% half / 28% twin
Configurator:	No
Fusion:	Yes
8m mark:	Yes
Reflector:	Yes
Ultrasonic finish:	Yes
Size long:	50m
Diameter:	7,4mm
