

TITAN GLUE

Ref: V30600

Fixe's ultimate solution for installations in the most corrosive environments, such as marine environments, among others. The titanium Glue in bolt complies with the highest design and material requirements proposed by the regulatory committees. Made of grade 2 titanium, under the EN959: 2018 standard, it offers a resistance of 25kN in only 52g of weight. With a diameter of 8mm and designed for 10mm holes.

Información técnica:

Brand:	Fixe
Country of origin:	Spain
Color:	Titanium
Material:	Ti Grade 2
Breaking Strenght:	25kN
Configurator:	No
Diameter:	8mm
