

FERRATUM

Ref: Z60010

Energy absorber for the practice of Via Ferrata. Light and compact set, which facilitates the progression through the steps equipped on the Via Ferrata. The elastic slings avoid problems during the progression and thus facilitating the hooking on the anchors. The carabiners are made of aluminum and their opening are ergonomic.

Technical Features

Made of polyamide, dyneema and aluminium

Weight: 592g

Activation force: 1,2kN

Breaking force: 22kN

PACKAGING INFO

The packaging is made entirely of biodegradable material. It is made completely of Kraft Paper. The base of the applied dyes holds a vegetable origin. For it all of its packaging must be recycled as paper.

Información técnica:
